FIS BLUE BASIC MILITARY KIT WITH CONTINUITY TESTER

(DELPHI, SMPTE 358M - M29504/14 /15)

FIS BLUE INC.

FIS Blue is a worldwide leader in fiber optic technology. Through decades of servicing customers, FIS Blue has created a series of kits specific to the needs of field technicians. All kits include an array of hand tools and cleaning supplies. There are also deluxe and testing kits available for all styles of Broadcast and Military connectors. All FIS Blue kits are non-hazmat and can ship air.

FIS Blue's Basic Military (Delphi, SMPTE 358M - M29504/14 /15) Kit with Continuity Tester includes all the items in the Basic Military Kit plus a fiber optic continuity tester. The VFL (visual fault locator) can reach up to 7km on singlemode fiber. In addition, Reference Grade Test Cables are supplied to properly test Singlemode, 50um Multimode and 62.5um Multimode Delphi connectors. The fiber optic VFL also works with the standard ST/FC/SC/LC type connectors
