

TAC-GRIP METAL BREAKOUT KIT

The FIS Blue Tac-Grip Metal Breakout Kit provides a ruggedized solution for terminating tactical distribution (900µm tight buffered) cables. The revolutionary metal construction of the breakout kit ensures the physical safety of each fiber within the assembly. The Tac-Grip is available for 2, 4, 6, 12, and 24 fiber options and uses 3mm color-coded sub-units. Together, with the protective netting, this breakout kit adds an extra layer of protection to your re-deployable fiber optic cabling.

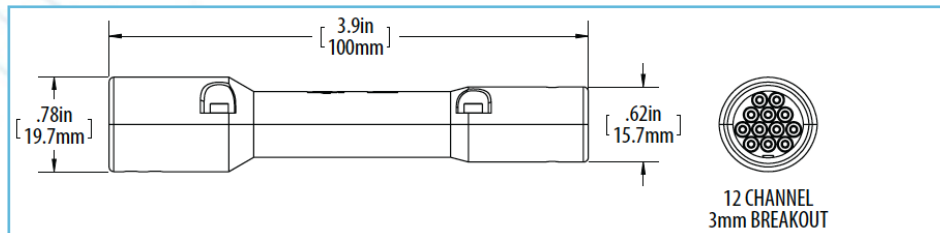

PRODUCT FEATURES AND BENEFITS

- 2, 4, 6, 12, and 24 Fiber Breakout Kits
- Black Anodize Finish
- 36" Long 3mm Color-Coded Jacketing
- Protective Netting
- Metal Body Offers Superior Durability

DIMENSIONS

Tac-Grip Metal Breakout Kit Dimensions

Dimensions are in inches and millimeters, drawings displayed at a .75 scale

SPECIFICATIONS

Fiber Count	Breakout Cable Diameter	Maximum Cable Diameter	Outer Dimensions
2-Fiber	3mm	7.5mm	100mm x 19.7mm
4-Fiber	3mm	7.5mm	100mm x 19.7mm
6-Fiber	3mm	7.5mm	100mm x 19.7mm
12-Fiber	3mm	7.5mm	100mm x 19.7mm
24-Fiber	3mm	7.5mm	100mm x 47.6mm
