

# FIS BLUE BASIC SMPTE KIT WITH CONTINUITY TESTER

(LEMO/CANARE)

FIS Blue is a worldwide leader in fiber optic technology. Through decades of servicing customers, FIS Blue has created a series of kits specific to the needs of field technicians. All kits include an array of hand tools and cleaning supplies. There are also deluxe and testing kits available for all styles of Broadcast and Military connectors. All FIS Blue kits are non-hazmat and can ship air.

FIS Blue's Basic SMPTE Tool & Cleaning Kit with Continuity Testers include all the items in the Basic Kit plus fiber optic and copper continuity testers. The VFL (visual fault locator) can reach up to 7km on singlemode fiber. In addition Reference Grade Test Cables are supplied to properly test SMPTE connectors. The fiber optic VFL also works with the standard ST/FC/SC/LC type connectors.
