

FIS BLUE BASIC MILITARY CLEANING & TOOL KIT

FIS Blue is a worldwide leader in fiber optic technology. Through decades of servicing customers, FIS Blue has created a series of kits specific to the needs of field technicians. All kits include an array of hand tools and cleaning supplies. There are also deluxe and testing kits available for all styles of Broadcast and Military connectors. All FIS Blue kits are non-hazmat and can ship air.

FIS Blue's Basic Military Tool & Cleaning Kit include all the items needs to properly clean and maintain TFOCA-II, Expanded Beam, Delphi and other Mil-Spec connectors, plus the standard ST/FC/SC/LC type connectors. In addition there are some basic tools for maintaining and working with the connectors.
